<b>Patient Case:</b>				
<b>All patient cases are compulsory for the Level 1 Certificate. All 15 cases are now available.</b>				
<b>Alex (15 months)</b>	15-month-old boy having a first seizure			
<b>Albert (74 y/o)</b>	74-year-old male with new onset status epilepticus			
<b>Carlos (36 y/o)</b>	36-year-old male after an episode of loss of consciousness and head trauma.			
<b>Daphne (4 y/o)</b>	4-year-old girl living in sub-Saharan Africa having seizures			
<b>Greg (42 y/o)</b>	42-year-old male having seizures			
<b>Helena (16 y/o)</b>	Adolescent (16 y/o) female with new onset seizures			
<b>Jason (16 y/o)</b>	16-year-old male with diagnosed epilepsy and breakthrough seizures			
<b>Julia (30 y/o)</b>	30-year-old woman having seizures "when fear leads the path"			
<b>Joseph (72 y/o)</b>	72-year-old male with seizures post stroke			
<b>Justin (8 y/o)</b>	8-year-old child having first seizures			
<b>Ken (24 y/o)</b>	24-year-old male having seizures and fever			
<b>Manel (22 y/o)</b>	22-year-old male having first seizures			
<b>Maria (6 y/o)</b>	6-year-old child in Latin America having seizures			
<b>Maya (26 y/o)</b>	26-year-old female having seizures			
<b>Sarah (6 y/o)</b>	6-year-old girl having blank spells.			
<b>Epilepsy Imaging</b>				
	Interactive knowledge database for neuroimaging in epilepsy, with examples and case exercises.			
<b>Histopathology(L1)</b>				
	10 video tutorials on common brain lesions in epilepsy.			
<b>Ebrain Sessions</b>				
	<b>ebrain: Full Package</b>	<b>ebrain: Children Package</b>	<b>ebrain: Treatment Package</b>	<b>ebrain: Diagnostics Package</b>
<b>Available as standalone or part of a package.</b>				
<b>Courses marked with red X are compulsory for the Level 1 Certificate</b>				
Acute Symptomatic Seizures	X	X		X
An introduction to neurological assessment	X			X
Assessment and Treatment of Refractory Epilepsy	X		X	
Assessment of Patients Presenting with Blackouts	X			
Brain Imaging in Seizures and Epilepsy	X			X
Cardiac Syncope	X			
Causes of Epilepsy - Symptomatic	X			
Childhood Absence Epilepsy	X	X		
Choosing Antiepileptic Drugs for Focal Epilepsy	X	X	X	
Choosing Antiepileptic Drugs for Generalized Epilepsy	X	X	X	
Cognitive assessment in epilepsy	X			
Convulsive Status Epilepticus	X			
CT Based Imaging techniques	X			X
Diagnosis of Frontal Lobe Epilepsy	X			X
Diagnosis of Temporal Lobe Epilepsy	X			X
Differential Diagnosis of Blackouts and Epilepsy	X			
Dissociative (psychogenic non-epileptic) Seizures	X			
Epilepsy and Intellectual Disability	X	X		
Epilepsy and psychosis	X			
Epilepsy in Adolescence	X	X		
Epileptic Seizures and Syndromes in Neonates and Infants	X	X		
Identifying epilepsy through patient videos: A guide for medical students and junior doctors	X	X	X	X
