

How to select content in another language than English, if available?

If content is available in other languages than English, a selection link will be available in the course content section. Click this link:

If you would like to review the content in a language other than English, select the desired language (Spanish) below:

 [Select language](#)

Then the currently available languages for this content will be shown. Click the one, you want to use and you will be guided to the course content in this language.

 [Select language](#)

Español

When returning to the content section you will have from now on the links to the content in English and the other language you have selected, in case you will come back later again.

Note: The current status of your progress is only saved in the specific language file you have visited before.

 [Histopathology in a nutshell \(Level 1\) | English](#)

 [Histopathology in a nutshell \(Level 1\) | Spanish](#)

For completion of this course, you have to progress at least **entirely through one of these language files**. Then a tick box will be available next to the language version you have completed. Only then you will be able to progress in this course, e.g.: to the final test.
